

Orienteering

On the last day we had a go at orienteering. Before we started we practised using a compass. Our equipment that we used was a compass and whistle.

After we practised how to use a compass we ran around trying to find the codes for our white course we had got to find them in order. Frankie and Philip came 1st and James and I came 4th.

Then we went back to the lab and our teacher Jo said that we were going to do a harder course. So off we went into an 80 acre forest!! There were 18 controls. We had got to find them all but not in order. Then we went back into the lab. James and I came 2nd with 240 points.
